

KLOVE is currently the only station playing Christian Music 24/7. The only other Christian Station in our area was just sold and may be changing formats. KLOVE creates a valuable service by promoting free events for the community. People know where to find it at 88.1 on the dial and expect to hear great Christian music.

KLOVE may be the only Christian station left in our city. Please don't force them to change locations or shut them down. They serve our community by hosting events, giving public service announcements and community event promotion. Without KLOVE, we wouldn't be aware of these things. I will fight to the end my right to have one station that I allow my children to listen to. It's the only station they can have on. I know nothing will be in the lyrics or from the broadcasters that I would not like my children to hear. It's 100% safe for my family.
